***Reasons for allowance***

1. This communication is in response to applicant's 01/18/2005 amendment in the application of Calderone et al. for an "N-way demultiplexer" filed 09/14/2000. The proposed amendments have been entered and made of record. Claims 3 and 19 have been canceled per applicant's request, and claims 1, 4, 17, 20 have been amended. The claims have been amended to include the allowable subject matter set forth in the office action mailed on 10/18/2004.

2. The amended paragraphs in specification correct the status of related application. Therefore, examiner has withdrawn the Objections of record to the specification. The objection to the drawings has been withdrawn due to the corrected or substitute drawings received on 01/18/2005. These drawings are approved.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

4. The application has been amended as follows:

**IN THE CLAIMS:**

I. Cancel the withdrawn claims 8-16 and 24-32.

Art Unit: 2665

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Claims 1, 2, 4-7 and 17, 18, 20-23 are allowable as evident by applicant's amendment (Claims are renumbered as 1-12 respectively)

7. The following is an examiner's statement of reasons for allowance: The closest prior art of record fails to disclose or suggest wherein a synchronizing scheme in which a synchronization string is always written to a particular channel before the output channels are allowed to be clocked, as specifically recited in the claims. The instant invention, in combination with the other claimed features, improves upon the Prior Art by providing a method and system for mediating data exchange rates among various components utilizing N-way demultiplexer.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
